BOW STRUCTURES

STRONG FOUNDATIONS. STRONGER PARTNERSHIPS.

BOW PROJECTS

COMPANY OVERVIEW

BOW PROJECTS

Bow Structures is the dedicated internal division of Bow Projects, established to deliver end-to-end structure solutions with precision, efficiency, and innovation. By consolidating critical capabilities in-house, we provide unmatched control over design, compliance, and delivery, ensuring superior outcomes for our clients.

BOW PROJECTS

OUR VISION

Perseverance and ambition drive us as we challenge the limits of architecture and engineering. Harnessing our team's expertise to enhance the lives of end-users. Passionately nurturing an innovative environment, we ensure each project opens new horizons and positively influences the future.

OUR MISSION

Enduring partnerships are the cornerstone of BOW, built on trust and collaboration among our team, clients, and partners. This principle steers our projects and decisions, reinforcing that we're building more than structures; we're forging a long-term reputation and legacy that's more important than anything, and that means looking after people and delivering on our word.

BOW PROJECTS

VALUES

PERSEVERANCE

Resistance is opportunity in disguise. We approach every challenge with the mindset of ‘How can we make this work?’ This perspective fuels our relentless drive, transforming obstacles into avenues for innovation and achievement.

SYNERGY

We believe in the power of aligned partnerships, where the collective effort of our team, clients, and collaborators creates outcomes greater than the sum of individual contributions.

INNOVATION

We are always pushing boundaries within the construction industry, seeking new solutions, and embracing challenges. Innovation is part of our DNA, and the way we think.

INTEGRITY

Integrity guides us, ensuring honesty and commitment in all we do. It cultivates a culture of trust, with every action reflecting our dedication to doing right by our clients, partners, and team, even when no one is watching.

BOW PROJECTS

CORPORATE STRUCTURE & TEAM

EXECUTIVE TEAM

BOW PROJECTS

ANDREW ROBB AO

Chairman

Andrew Robb AO is a former Australian politician and economist who negotiated major Free Trade Agreements, contributed to the TPP, held senior roles in agriculture and industry, and now advises on energy, infrastructure, and investment projects.

JASON O'HARA

Director

Delivered major stadium, retail, high-rise and mixed-use developments over a 38-year construction career, supported by strong end-to-end project leadership and unlimited Commercial & Domestic Building licences.

JOE BRINZI

Director

36 years' experience coordinating and delivering award-winning residential and commercial projects, with recognised WHS expertise and leadership in bushfire recovery efforts for the Victorian State Government during the 2019 bushfires.

STEVE WANG

Director

Former executive director at global top 500 public list property development company, with $18B in real estate developments portfolio across US, UK and Australia

HASSAN KASSEM

Director
- BOW Structures

Over 25 years' experience in residential, commercial, and mixed-use construction, with strong capability in ECI, structural optimisation, and project delivery. Focused on efficiency, safety, and client outcomes.

NIDHI PANDEY

Estimating Director
- BOW Projects Queensland

Nidhi draws on her experience in Architecture and Construction Management to provide thorough work as a Quantity Surveyor and Estimator. Nidhi is a respected construction estimator with strong communication, problem-solving, and teamwork skills.

BRYCE KEMP

Principal Engineer

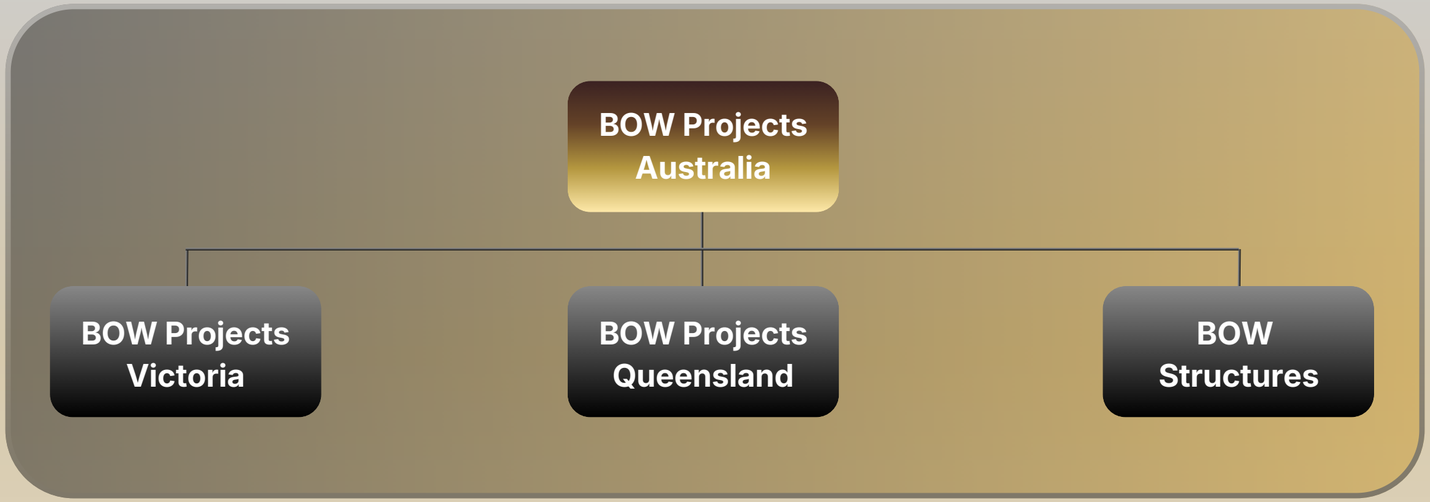

Founder and Director of KPA Consulting with 17 years' experience and over 900 completed projects, including major works such as the Melbourne Metro Tunnel and West Gate Tunnel.

MAHITHA CHERUKUVADA

Post Tensioning Specialist

Leader with 17+ years' experience in post-tensioning and structural remediation projects. Skilled in full project lifecycle management, team leadership, and process optimisation. Proven ability to drive growth, secure major contracts, and deliver safe, on-time, value-engineered outcomes.

BOW PROJECTS

OUR CAPABILITY

CORE CAPABILITY

Integrated Structure Delivery

- Full control from concept design through construction, reducing reliance on external contractors and mitigating delays.

Design & Innovation

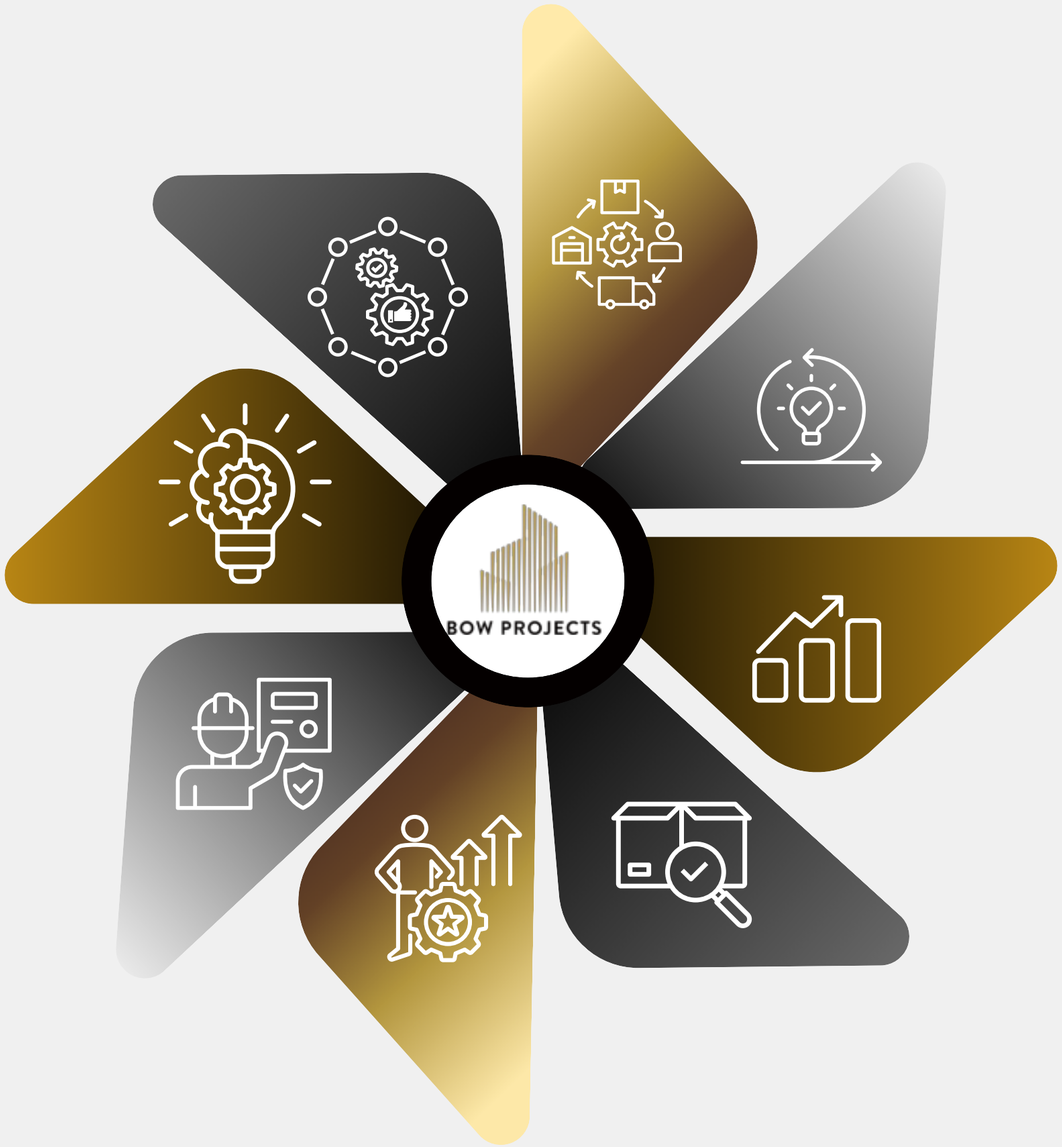

- Advanced in-house design capability leveraging cutting-edge technologies and sustainable methodologies for efficient, resilient structures.

Compliance & Safety

- Internal formwork design, inspections, and certification aligned with Australian Standards, ensuring regulatory compliance and safety excellence.

Self-Performance Expertise

- Earthmoving, basement construction, formwork, reinforcement, and post-tensioning delivered by our skilled teams for cost and schedule certainty.

Supply Chain Stability

- Strategic partnerships and dynamic pricing models safeguard material availability and cost predictability.

Concrete Solutions

- Internal capability to develop advanced concrete mix designs, enhancing performance, efficiency, and quality.

Technology-Driven Precast Installation

- BIM-enabled planning for clash detection and streamlined installation, reducing rework and improving efficiency.

Structure - Project and Construction Management

- Comprehensive and coordinated planning, ensuring timely delivery and budget adherence.

KEY ADVANTAGES & CORE COMPETENCIES

- Building Licenses (Unlimited Commercial & Domestic)
- Public Liability Insurance
- Professional Indemnity Insurance
- Workers' Compensation Insurance

Subject: B.O.W Projects - Joe Brinzi

Dear whom may it concern.

I am writing this letter to express my enthusiastic support for Joe Brinzi's involvement with BOW Projects. Having had the privilege of working closely with Joe for several years, I can confidently attest to his exceptional skills, dedication, and contributions to the organization.

Joe's exemplary leadership qualities and ability to inspire and motivate team members have been instrumental in driving the success of projects. His clear vision, strategic thinking, and effective decision-making have consistently guided our team towards achieving project goals and delivering outstanding results. Joe's approachable nature and supportive demeanour create a positive work environment that fosters collaboration, innovation, and professional growth.

One of Joe's standout qualities is his remarkable project management expertise. He possesses a deep understanding of project lifecycle processes, from initiation to completion, and skillfully applies best practices to ensure efficient project execution. Joe's meticulous attention to detail, combined with his exceptional organisational skills, enables him to effectively plan, schedule, and allocate resources, ultimately leading to successful project outcomes.

Joe's technical proficiency is truly commendable. He stays abreast of the latest industry advancements and continually seeks opportunities to enhance his knowledge and skills. His ability to leverage cutting-edge technologies and methodologies has greatly contributed to the organization's ability to deliver high-quality projects within tight deadlines. Joe's analytical mindset and problem-solving abilities have been pivotal in identifying and resolving project challenges, ensuring smooth project progression.

Furthermore, Joe's commitment to fostering strong client relationships sets him apart. He understands the importance of effective communication and active listening, ensuring that client expectations are met and exceeded. Joe's exceptional interpersonal skills enable him to establish rapport and build trust with clients, resulting in long-term partnerships and repeat business opportunities for BOW Projects.

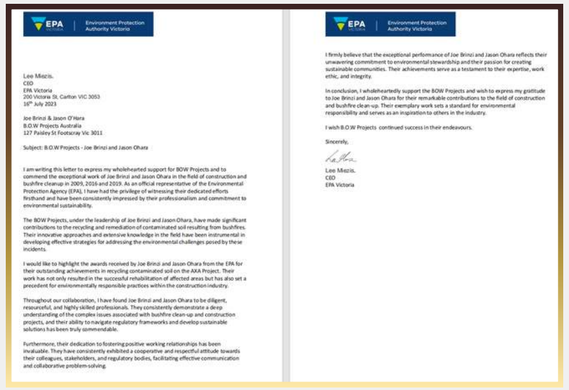

Beyond his professional achievements, Joe is a respected and admired member of the community. He actively champions social responsibility initiatives, consistently seeking ways to positively impact the lives of others. Joe's commitment to sustainability and his involvement in community engagement efforts serve as a shining example to his colleagues and inspire others to make a difference.

In conclusion, Joe Brinzi is an invaluable asset to BOW Projects, and I wholeheartedly endorse his continued involvement with the organization. His exemplary leadership, technical expertise, and unwavering dedication make him an outstanding professional and an invaluable team member.

I wish B.O.W Projects all the best for the future.

Sincerely,

Christian George.

Subject: B.O.W Projects - Joe Brinzi and Jason Ohara

I am writing this letter to express my wholehearted support for BOW Projects and to commend the exceptional work of Joe Brinzi and Jason Ohara in the field of construction and bushfire cleanup in 2009, 2016 and 2019. As an official representative of the Environmental Protection Agency (EPA), I have had the privilege of witnessing their dedicated efforts firsthand and have been consistently impressed by their professionalism and commitment to environmental sustainability.

The BOW Projects, under the leadership of Joe Brinzi and Jason Ohara, have made significant contributions to the recycling and remediation of contaminated soil resulting from bushfires. Their innovative approaches and extensive knowledge in the field have been instrumental in developing effective strategies for addressing the environmental challenges posed by these incidents.

I would like to highlight the awards received by Joe Brinzi and Jason Ohara from the EPA for their outstanding achievements in recycling contaminated soil on the AXA Project. Their work has not only resulted in the successful rehabilitation of affected areas but has also set a precedent for environmentally responsible practices within the construction industry.

Throughout our collaboration, I have found Joe Brinzi and Jason Ohara to be diligent, resourceful, and highly skilled professionals. They consistently demonstrate a deep understanding of the complex issues associated with bushfire clean-up and construction projects, and their ability to navigate regulatory frameworks and develop sustainable solutions has been truly commendable.

Furthermore, their dedication to fostering positive working relationships has been invaluable. They have consistently exhibited a cooperative and respectful attitude towards their colleagues, stakeholders, and regulatory bodies, facilitating effective communication and collaborative problem-solving.

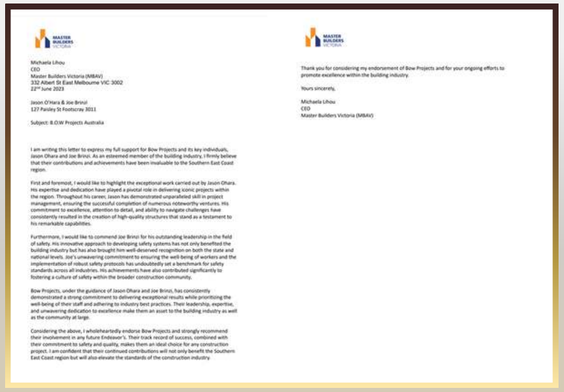

I firmly believe that the exceptional performance of Joe Brinzi and Jason Ohara reflects their unwavering commitment to environmental stewardship and their passion for creating sustainable communities. Their achievements serve as a testament to their expertise, work ethic, and integrity.

In conclusion, I wholeheartedly support the BOW Projects and wish to express my gratitude to Joe Brinzi and Jason Ohara for their remarkable contributions to the field of construction and bushfire clean-up. Their exemplary work sets a standard for environmental responsibility and serves as an inspiration to others in the industry.

I wish B.O.W Projects continued success in their endeavours.

Sincerely,

Lee Miezis.

Subject: B.O.W Projects Australia

I am writing this letter to express my full support for Bow Projects and its key individuals, Jason Ohara and Joe Brinzi. As an esteemed member of the building industry, I firmly believe that their contributions and achievements have been invaluable to the Southern East Coast region.

First and foremost, I would like to highlight the exceptional work carried out by Jason Ohara. His expertise and dedication have played a pivotal role in delivering iconic projects within the region. Throughout his career, Jason has demonstrated unparalleled skill in project management, ensuring the successful completion of numerous noteworthy ventures. His commitment to excellence, attention to detail, and ability to navigate challenges have consistently resulted in the creation of high-quality structures that stand as a testament to his remarkable capabilities.

Furthermore, I would like to commend Joe Brinzi for his outstanding leadership in the field of safety. His innovative approach to developing safety systems has not only benefited the building industry but has also brought him well-deserved recognition on both the state and national levels. Joe's unwavering commitment to ensuring the well-being of workers and the implementation of robust safety protocols has undoubtedly set a benchmark for safety standards across all industries. His achievements have also contributed significantly to fostering a culture of safety within the broader construction community.

Bow Projects, under the guidance of Jason Ohara and Joe Brinzi, has consistently demonstrated a strong commitment to delivering exceptional results while prioritizing the well-being of their staff and adhering to industry best practices. Their leadership, expertise, and unwavering dedication to excellence make them an asset to the building industry as well as the community at large.

Considering the above, I wholeheartedly endorse Bow Projects and strongly recommend their involvement in any future Endeavor's. Their track record of success, combined with their commitment to safety and quality, makes them an ideal choice for any construction project. I am confident that their continued contributions will not only benefit the Southern East Coast region but will also elevate the standards of the construction industry

Thank you for considering my endorsement of Bow Projects and for your ongoing efforts to promote excellence within the building industry.

Yours sincerely,

Michaela Lihou

Subject: Joe Brinzi & Bow Projects

I am writing this letter to express my strong support for Joe Brinzi and Bow Projects in their pursuit of construction projects on the Gold Coast. As a former QAM and someone who has had the privilege of working closely with Joe on a previous project, I can confidently vouch for his exceptional leadership skills and the impressive capabilities for Bow Projects.

During my collaboration with Joe, he served as the team leader for the construction of the Commonwealth Athletes Village. This project presented us with a challenging timeline, but under Joe's guidance, the team successfully delivered the project on time without any significant issues. His exceptional project management skills, dedication, and unwavering commitment to excellence were instrumental in achieving this feat.

Joe Brinzi is a natural leader who possesses the ability to inspire and motivate his team to perform at their best. His strong work ethic, attention to detail, and exceptional organizational skills ensure that every aspect of the project is meticulously planned and executed. I was particularly impressed by Joe's problem-solving capabilities, as he consistently found innovative solutions to overcome obstacles and keep the project on track.

In addition to his leadership qualities, Joe Brinzi consistently deliver high-quality work. The Commonwealth Committee fully endorsed Joe and his team for their exceptional track record and their unwavering dedication to excellence. Their professionalism, attention to detail, and commitment to delivering projects of the highest standards have earned them a stellar reputation in the industry.

One of the standout qualities of Joe and is their can-do attitude. Regardless of the challenges faced, they approach each task with a positive mindset and a determination to find solutions. Their willingness to go the extra mile and tackle difficult tasks head-on makes them an invaluable partner for any construction project.

In conclusion, I wholeheartedly support Joe Brinzi and Bow Projects in their endeavour to undertake construction projects on the Gold Coast. Their proven expertise, exceptional

leadership, and commitment to excellence make them a highly qualified and reliable choice for any construction endeavour. I am confident that their involvement will not only guarantee the successful completion of projects but also contribute to the overall growth and development of the Gold Coast.
I support B.O.W Project to take on the construction of the 2032 Athletes village in Hamilton Brisbane.

Sincerely,

Mark Peters

To Whom it May Concern

REFERENCE – JASON O' HARA & JOE BRINZI

Rider Levett Bucknall Victoria Pty Ltd have worked with both Jason O' Hara and Joe Brinzi for over 20 years.

During this time, they have successfully completed numerous iconic projects across the Eastern seaboard, as well as in South Australia. Their dedication to excellence and their commitment to delivering high-quality results are truly commendable.

I personally have worked with Jason O' Hara and Joe Brinzi during this time and can attest to their professionalism, leadership, and exceptional project management skills. Their combined expertise and innovative approach to each project they undertake have consistently yielded outstanding outcomes, especially on projects of a challenging and complex nature.

I am confident that BOW Projects Australia, led by Jason and Joe, will continue to excel in the industry and deliver exceptional results for their clients, project partners, and stakeholders. They have my full support, and I have no doubt that they will continue to impress with their work.

Yours faithfully

Subject: Joe Brinzi- B.O.W Projects Australia

Dear Client
I am writing this letter to express my full support for Joe Brinzi and his exceptional contributions to Workplace Health and Safety (WHS) compliance and safety leadership in the construction industry. As a representative of Bow Projects, I have had the privilege of witnessing Joe's remarkable achievements firsthand.
Joe Brinzi's commitment to safety has been exemplary, and his efforts have elevated safety standards to new heights. He was among the first businesses to achieve accreditation from the Office of Federal Safety Compliance (OFSC), a testament to his dedication and expertise in WHS compliance.
In addition to his accomplishments, Joe has emerged as a trailblazer in the construction industry, spearheading safety initiatives and driving positive change. His active participation in the Industry Reference Group (IRG) has been instrumental in shaping the commonwealth system and implementing crucial reforms. Joe's insights, knowledge, and willingness to advocate for best practices have proven invaluable to the IRG's Endeavor's.

Furthermore, Joe's leadership and contributions have had a significant impact not only within his own organisation but also across the broader industry. His forward-thinking approach, coupled with his ability to effectively collaborate with stakeholders, has garnered respect and admiration from his peers.

It is with great enthusiasm that I offer my support for Joe Brinzi's endeavours. His unwavering commitment to safety, extensive expertise, and influential role in the IRG make him an outstanding candidate for any initiative or undertaking related to WHS compliance and safety leadership.

Thank you for your attention to this matter. I am confident that Joe's continued dedication and expertise will contribute significantly to the ongoing advancement of Workplace Health and Safety.

Yours sincerely,

Catherine Box

SCOPE OF SERVICES

BOW PROJECTS

Design & Engineering

- Structural Design and Rationalisation
- Formwork Design and Certification
- Temporary Engineering
- Retention & Foundation Design
- Base Build Design
- Independent Certification

Structure Construction

- End-to-End Substructure and Superstructure Delivery
- Formwork Operations
- Reinforcement and Post Tensioning Supply and Installation
- Concrete Supply and Placement
- Precast Installation

Groundworks & Basement Construction

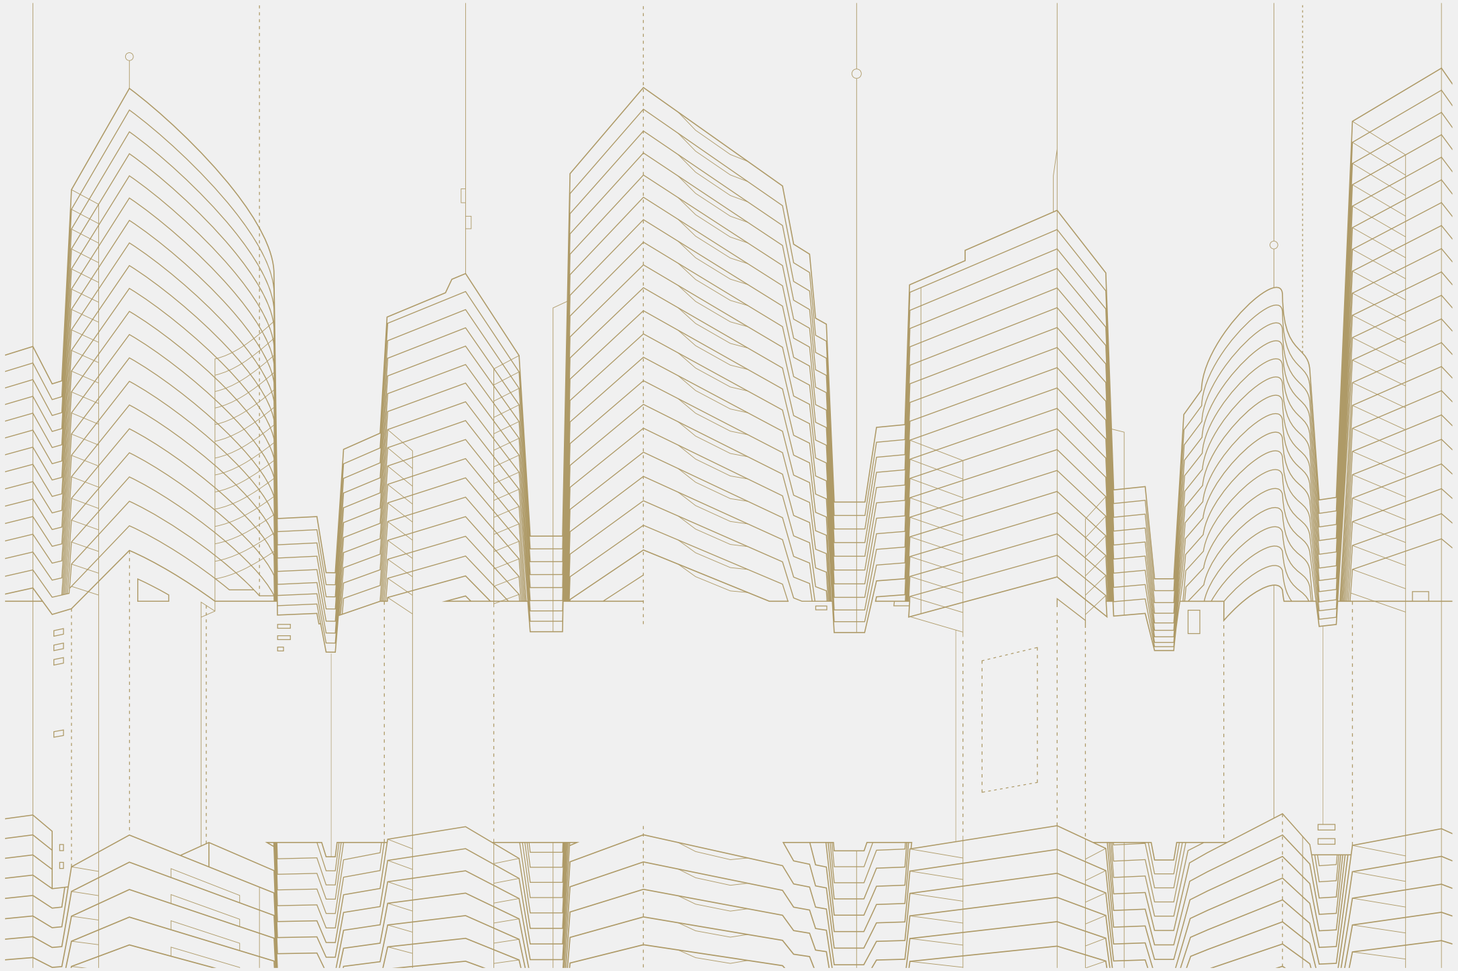

- Earthmoving
- Basement Construction
- D&C Retention Systems

Project Management & Remedial Works

- Structure – Project and Construction Management
- Remedial Works

BOW PROJECTS

PROJECT EXPERIENCE

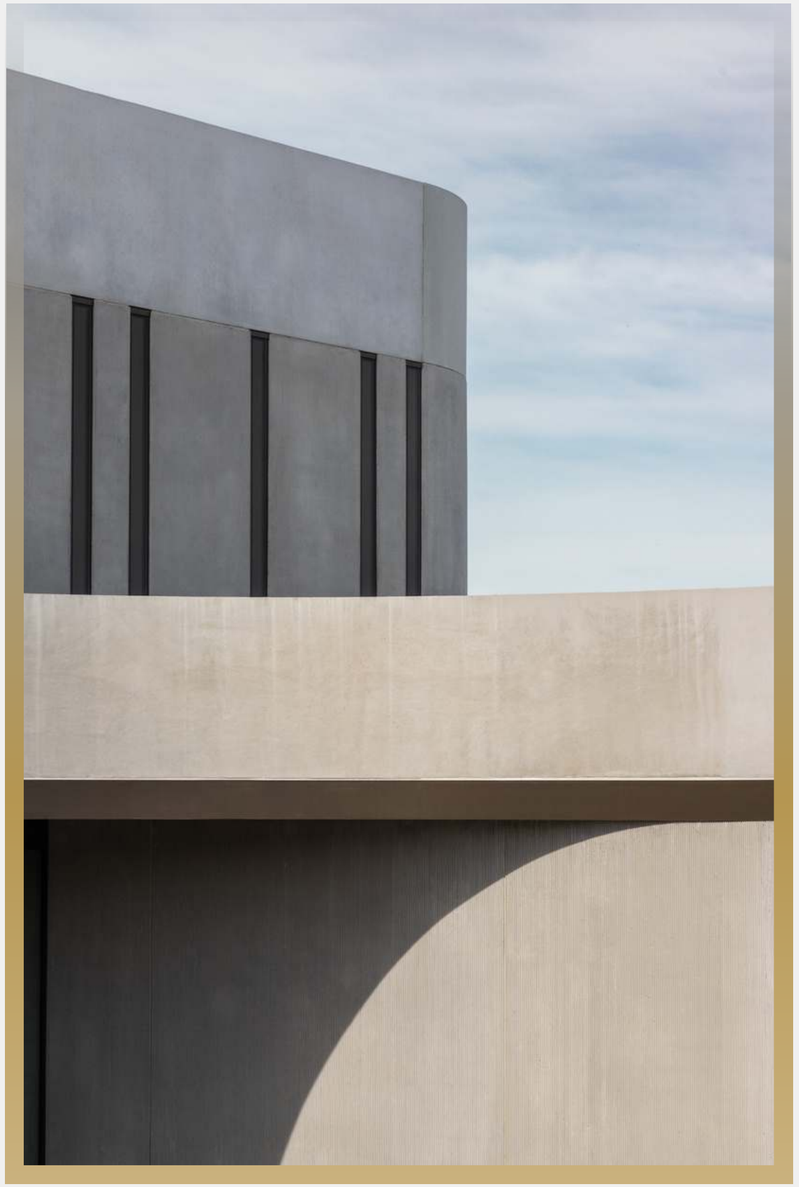

PROJECT HIGHLIGHTS

Alba

Description: Retention system, screw piles, slab on ground, two suspended slabs and precast installation

Ground Floor (4,000 m²)

- Raft slab and foundations incorporating CFA piles and screw piles
- Approx. 800 m³ of concrete

Suspended Post-Tensioned Slabs (4,000 m²)

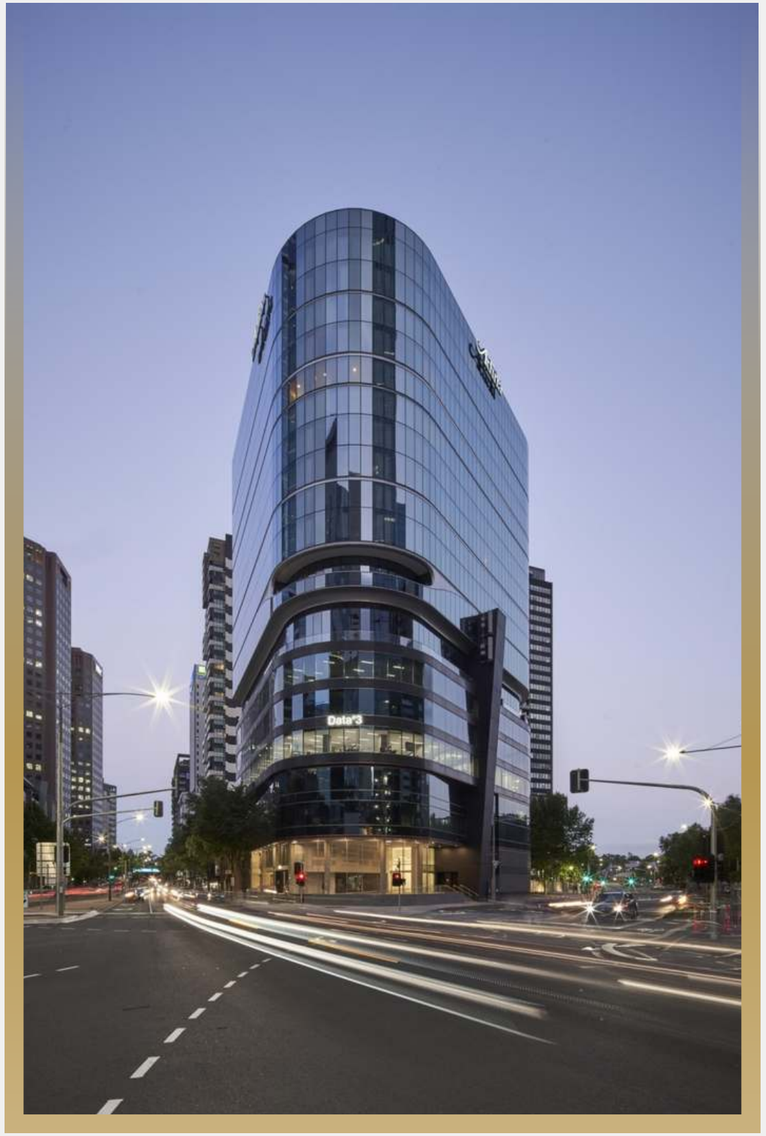

PROJECT HIGHLIGHTS

Adina Apartment Hotel

Description: Refurbishment and Strengthening – 6-Level Office Building Extended to 18 Levels

Construction Phase Engineering Services

- Inspection, structural assessments, and construction methodology planning for refurbishment and strengthening works

Temporary Works

- Design and documentation of foundation piles, crane base raft, and temporary supports for demolition of the existing core

Design & Construct Engineering

- Design and consulting services for new core installation, concrete transfer slabs (2 floors), and construction of 10 levels of Cross Laminated Timber (CLT)

PROJECT HIGHLIGHTS

Hedgeley

Description: Double basement design and construction with triple level car stacker, post tensioned slab design and construction, including precast intallation

3,600 m² Floor Plate – 2 Basements + 5 Levels

D&C Retention Works
- 600 mm piles @ 1.8 m centers (16 m)
- Shotcrete: 75 mm + 150 mm

B2 Hydrostatic Slab + Foundation Piles
- Hydrostatic slab: 500 mm thickness
- Foundation piles included

B1 Post-Tensioned Slab
- 3,600 m² , 250 mm thickness

Ground Floor Transfer Slab
- 3,600 m² , 350 mm, post-tensioned

Floors 1–4
- 3,600 m² , Post-tensioned slabs: 250 mm thickness

Precast Panels
- Installation

PROJECT HIGHLIGHTS

BOW PROJECTS

10 Lilydale Grove

Description: 11-Storey Multi-Residential Building with 4 Basements

Structural Design – Horizontal & Vertical Elements

- Design and documentation of all primary horizontal and vertical structural components

Retention System

- Design of the basement retention system

Construction Stage Services

- Provision of construction phase support and structural services

New Footscray Hospital

Description: $1.5 B Commercial Structure – Largest Medical Development in Victoria

Construction Phase Engineering Services

- Inspection services, value management reviews, and re-design solutions

Temporary Works

- Engineering design and documentation for all required temporary works

Design & Construct Engineering

- D&C engineering designs and ongoing consulting services

Melbourne Airport

Description: Masonry Wall Removal & Structural Temporary Works

Construction Phase Engineering Services

- Inspection services, demolition methodology review, and construction methodology planning

Temporary Works

- Engineering design and documentation for hardstand platforms, propping of all precast elements, and temporary support for non-loadbearing façade precast walls

Design & Construct Engineering

- Design and consulting services for all temporary works and demolition-related structural supports
